*Mould-Tek offers a 3-in-1 solution for stains caused by mould & mildew. First, it **CLEANS** by penetrating quickly to dissolve oils and dirt to then get tough on the stain, without causing damage to the surface. Second, it **DEODORIZES** by neutralizing lingering odours caused by mould & mildew, leaving a residual fresh, clean fragrance. Third, it continues to **BLOCK** the recurrence of stains. Thickened formula sticks to vertical surfaces and is ideal and safe for hard and soft surfaces including fabrics, vinyls, boat tops, stitching, awnings, pop-up trailers, outdoor furniture, tiles, grout, shower stalls and doors, tubs, plastics and fiberglass. Mould-Tek is 95% biodegradable!*

**DIRECTIONS:** Spray onto surface to be treated and let soak for 5 to 10 minutes. Scrub lightly with a soft bristle brush and rinse thoroughly with fresh water. Stubborn stains may require a second application. Avoid prolonged contact or drying on surface. Test in an inconspicuous area before using. Do not use on dyed or delicate natural fabrics, wood or painted surfaces.
