

PROFESSIONAL HULL CLEANER

POWERFUL FIBERGLASS HULL CLEANER

Professional Hull Cleaner removes algae, zebra mussels, barnacles, greasy and oily residue, rust, and stubborn, black stains quickly and effectively from fiberglass boat hulls.

DIRECTIONS: Power wash or hose off loose debris. Apply Professional Hull Cleaner onto surface to be cleaned with a brush, roller or sprayer. Ensure cleaner is evenly spread and allow to stand for up to 5 minutes. Agitate with a soft, synthetic brush as required and rinse thoroughly. If not fully clean or if yellowing occurs, repeat the process. Rinse well.

CAUTION: This cleaner may not be suitable for use on metal boats. Avoid prolonged contact with engine and drive parts.
